## **DETAILED ACTION**

### ***Election/Restriction***

1. Applicant's election without traverse of species A (figure 2) in Paper No. 7 is acknowledged.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 5, 21 and 24-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Baldwin.

Baldwin discloses a hand held pressurized product dispenser of pressurized spray of any nature (column 2, line 3) comprising a container 2 having a top 8, a handengageable body portion 4, and a bottom 6. Baldwin further comprises a valve mechanism 32 and a valve actuation lever 92. The valve actuation lever is pivoted about point 80 such that the valve engaging portion is located between the pivot and the lever end.

*Claim Rejections - 35 USC § 112*

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 2, 10, 12-17 and 24-26 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant claims a "product delivery member" and a "product holding structure" in line 7 of claim 2. The specification is silent as to what these elements comprise.

*Conclusion*

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Patents to Edman et al., Morane et al., Dootson, Gring et al., and Laszlo disclose devices similar to applicant's invention.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Deal whose telephone number is (703) 308-2782.
